

## Alstead Conservation Committee

### Minutes for August 5, 2015

**Present:** Sarah Webb, Marilou Blaine, David Moody, Nan Montgomery, Donna Sabin, Joyce Curll, John Mann, Joyce Campbell-Counts

Both June and July meeting minutes were accepted.

**I. Casella/Pratt biosolids discussion:** Members reviewed the July meeting presentation by Casella and discussions by attendees. After discussion at the August ACC meeting, a vote from members resulted in “no support” for biosolids applications on the Pratt farm fields in Alstead.

**II. Pine Cliff Road letter to Selectmen:** Marilou and others will meet August 8 to draft a letter to the Selectmen containing proposed changes to Pine Cliff Road where it meets Route 123.

**III. Wallace/Palmer Site Walk at Lake Warren:** Joyce Curll updated the status of this issue. She requests a letter from the ACC for the upcoming Planning Board meeting about the owner’s request to re-divide to build. In the letter, the ACC would state that the property at this site is not buildable on the re-division being requested by the owners.

**IV. Dennis Molesky Easement Proposal, continued:** Members discussed Dennis’s proposal to “swap” some of his property abutting Wellman Pond with some of the Town’s property on Route 12A that has tax liens. He could use the swapped land with his property in the future for a public park and/or historic area with Blister mines. John Mann suggested someone from the ACC walk the properties under consideration.

**V. Tree cutting at Pratt Rock:** Sarah suggested meeting with Joel McCarty about getting some of the larger trees cut down on the Pratt Rock Town property.

Marilou provided upcoming events – conference and workshops – with dates and costs for interested members.

Meeting adjourned at 7:00 pm.
