

Alstead Conservation Committee
Meeting Minutes July 5, 2017

Present: Sarah Webb, Donna Sabin, Joyce Curll, Nan Montgomery, David Moody
Alternate: John Mann

I, Minutes from June 2017 - Accepted and passed as written.

II, ATVs - John Mann brought to the commission's attention a discussion he had with the Alstead Selectboard about ATVs from Marlow and their use on the Baine Road. Our following discussion's conclusion was not to offer a blanket invitation to use Class 6 roads, including the Baine Road, but to invite the Marlow ATV group to one of our meetings, and work out a way to be welcoming as well as setting some guides for ATV activities. John was to look into this proposal.

III, Lake Warren Watershed - Joyce Curll informed us that the Lake Warren Watershed Management Plan will become part of Alstead's Master Plan. The Lake Warren Watershed Management Plan has been completed.

Also, Joyce brought up ongoing problems with the Robert Palmer lakefront property. They need to submit a restoration plan to DES.

Pine Cliff Road demonstration planting has been disturbed and the sign removed. We had a discussion on how to make a path to the swimming area more accessible and welcoming.

Respectfully submitted by Sarah Webb
