A discussion ensued about road sand. David Crosby stated that he might be out by the end of February if the current weather continued. DPW Supervisor David Crosby was asked how much the Cobb Hill project would cost. He stated that all he had all the material so all need to hire is 3 trucks for a week along with his crew. The project will take approximately a week and will get rid of most of the glass that has been piling up at the Transfer Station. Then there will have to be a discussion on what we are going to do about the glass. It costs \$22.00 a ton plus transport to Keene to dispose of it.

Glenn Elsesser stated that there was work to be done on Hill Road as well as Walpole Valley. The banks are slipping away on these roads. He suggested that David look at the cost to do those projects for the future.
